

PALACE OF DREAMS

There you go, go, go

(CHORUS)

In my own palace of dreams

There's nothing that can stop me

If you want me to slow down

You've got a problem

In my own palace of dreams

I love everything I see

If you want me to slow down

You've got a problem

There you go

Never high but never ever low

But a bit better than I was before, uh

Always fast but never lose control

Leave footprints everywhere I go

Leave tread marks on the side of the road

Show up late just to let 'em know

About to take over, that's for sure

Used to call me bud, I'm about to grow

Bigger and bigger 'til I'm overgrown

Never have a limit I just overflow

Battle for the throne 'til I overthrow

Music in my veins 'til I overdose

Eye on the prize so I'm in the zone

Eliminate the haters got no time for those
Call me the wind I'm about to blow, yup

(CHORUS)

In my own palace of dreams
There's nothing that can stop me
If you want me to slow down
You've got a problem
In my own palace of dreams
I love everything I see
If you want me to slow down
You've got a problem

Awake or asleep I'm livin' my dreams
Caught up in the visions, yeah, I know how it seems
I'm like an old soul, take it back to the Supremes
I'm rising to the top, go ahead call me the cream
I let my light shine, look at how I beam
About to heat up, turn up, look at the steam
Trying to make change, not talkin' 'bout the green
Trying to reach the stars, not talkin' 'bout the team
Got every single back, yeah I'm talkin' 'bout my team
Reachin' new heights, look in the eyes of Yao Ming
Even through the lies you know I still believe
Every time I blink, and every time I breathe
They want me to follow, I just wanna lead
When it comes to love I just wanna breed
Pick my own shots, somebody set a screen
I love it when I'm here, I never wanna leave

(CHORUS)

In my own palace of dreams

There's nothing that can stop me
If you want me to slow down
You've got a problem
In my own palace of dreams
I love everything I see
If you want me to slow down
You've got a problem

Gotta Be Me featuring MadChild

(CHORUS)

Me, I've gotta be me
I've gotta be me
I've gotta be me
Buh, me buh, uh-uh-uh-uh
Me, I've gotta be me
I've gotta be me
I've gotta be me
Buh, me buh, uh-uh-uh-uh

I just gotta be me, nobody else
They try to leave me out, put me on the shelf
They say that I can't do it because of my health
But I'm all heart, that's the hand I was dealt
Give me a little more time
To prove that I'm alright
Believe that everyday
I'm breaking bills and making change
I'll keep at it 'til I'm running things
I'll be a pawn until I'm King
'Cause you'll see me

And you'll wanna be me, eh
Gold watches, gold chains and gold cars
That'd be nice but they won't get me far
I'd rather do my best to make a difference
Just doin' me, blind to the ignorance

(CHORUS)

Me, I've gotta be me
I've gotta be me
I've gotta be me
Buh, me buh, uh-uh-uh-uh
Me, I've gotta be me
I've gotta be me
I've gotta be me
Buh, me buh, uh-uh-uh-uh

Yo, Everyone deserves a chance, do your very best you can
First believin' in yourself, investin' in your own brand
First you have to make a plan, then you have to follow through
Look at all the s*** in life that people have to wallow through
That's why it's important that you seize the times that make you smile
Me I walk that extra mile, some rappers are blessed with style
Me I got that wordplay, combinations fiery
Listen to my album, it's like reading from a diary
As long as I've got future generations all admirin'
I won't even think about the day that I'm retirin'
Life it isn't fair, just have to make the f***** best of it
That's why Madchild is down with B-Flix and I'm respectin' him
Got a problem with my man and I'mma make a mess of him
Attack you like I'm wrestlin', I'm dope like f***** mescaline
I'm excellent, underground King, call me the rap Lord
Second life, we're climbin' up the ladder passin' trapdoors

(CHORUS)

Me, I've gotta be me
I've gotta be me
I've gotta be me
Buh, me buh, uh-uh-uh-uh
Me, I've gotta be me
I've gotta be me
I've gotta be me
Buh, me buh, uh-uh-uh-uh

Me, I've gotta be me
I've gotta be me
I've gotta be me
Buh, me buh, uh-uh-uh-uh

(CHORUS)

Me, I've gotta be me
I've gotta be me
I've gotta be me
Buh, me buh, uh-uh-uh-uh

Kristoff St. John

(CHORUS)

Call me Kristoff St. John, I'm young and I'm restless
I apologize to you all if I get reckless
I've got ice in my ears, and beads on my necklace
Call me Kristoff St. John, I'm young and I'm restless
Call me Kristoff St. John, I'm young and I'm restless
I apologize to you all if I get reckless
I've got ice in my ears, and beads on my necklace

Call me Kristoff St. John, I'm young and I'm restless

I kneel in the winter, I rise in the summer
I'm capable of anything, you better take cover
Tattoos on my skin, man that ain't a sin
I've got a stiff upper lip, damn it's tougher than my chin
Lilly of the valley, boy I bloom like a flower
Plug me in to charge until I fill up with power
Reincarnate me, make me feel like a new man
They say I ain't Jack but I ain't worried about it
Life is a game and I'll be the victor
Hear the clock tickin' but I'll get it in the nick of
Time, because I cannot wait
Been writin' these rhymes since I wrote 'em on slate

I'm young and I'm restless
I'm restless, I'm restless and I'm young, I'm young
I'm young and I'm restless
I'm restless, I'm restless and I'm young, I'm young

(CHORUS)

Call me Kristoff St. John, I'm young and I'm restless
I apologize to you all if I get reckless
I've got ice in my ears, and beads on my necklace
Call me Kristoff St. John, I'm young and I'm restless
Call me Kristoff St. John, I'm young and I'm restless
I apologize to you all if I get reckless
I've got ice in my ears, and beads on my necklace
Call me Kristoff St. John, I'm young and I'm restless

Dive on the competition make 'em walk with a cane
Give 'em all a reason to remember the name

Want it all for myself, and no I ain't sharin'
Makin' moves on my own, and no I ain't carin'
Who I run over, or who I pass
Shatterin' the records like broken glass
Hope and faith, one syllable words
It's my call if I go until I get hurt
Not lowerin' my sights on reachin' the stars
Gonna burn the competition, leave 'em all charred
Gunna grab success and throw it right at 'em
You think I'm a joke, well we'll see who's laughing

I'm young and I'm restless
I'm restless, I'm restless and I'm young, I'm young
I'm young and I'm restless
I'm restless, I'm restless and I'm young, I'm young

(CHORUS)

Call me Kristoff St. John, I'm young and I'm restless
I apologize to you all if I get reckless
I've got ice in my ears, and beads on my necklace
Call me Kristoff St. John, I'm young and I'm restless
Call me Kristoff St. John, I'm young and I'm restless
I apologize to you all if I get reckless
I've got ice in my ears, and beads on my necklace
Call me Kristoff St. John, I'm young and I'm restless

FAREWELL FINE FELLOW

I was sayin' "For Heaven's Sake"
How long do I have to wait

Thought that would be over by now
Thought I'd be rollin' on clouds
'Cause the hour hand keeps on movin'
Never decided, so who keeps choosin'
The time it takes to reach the peak
I'm not seven days, don't call me weak
Just the other day when you looked me in the eye
You said I'd never make it, damn that caught me by surprise

About the time they tell me that I've arrived
Will be about the time I have to say goodbye
But tomorrow will be better than today
So for now you can say

(CHORUS)

Farewell, farewell to the fine fellow
Farewell, farewell, farewell fine fellow

I've gotta come through
Yeah, I've gotta show you
That I felt nothin'
But I built it back up into somethin'
I made my own lane
Yeah, I did it my way
I bend but never break
I'm Sam Smith with it yellin' out just stay

About the time they tell me that I've arrived
Will be about the time I have to say goodbye
But tomorrow will be better than today
So for now you can say

(CHORUS)

Farewell, farewell to the fine fellow
Farewell, farewell, farewell fine fellow

Farewell, farewell to the fine fellow
Farewell, farewell to the fine fellow
Farewell, farewell to the fine fellow
Farewell, farewell, farewell fine fellow

HEAVEN BOUND

Problems on my mind, weigh heavy on my soul
Feel like I'm locked up, not even on parole
Think I need a wave, to surf above the pain
I know who put me here, that's why I wear these chains
I know who saved me, I know who spared my life
I know who turned the dark, into light
I'm just a single man, but I have a purpose
I made it through so I must be worth it

Time on my hands, so I carry time
Any question I have a reply
Yes or no, I tell 'em straight
When I get to Heaven hear 'em yellin' open up that gate
'Cause I've paid my dues, at least I hope I have
Those who don't know probably just laugh
That's ok, the crew knows
It ain't large, just the few I chose

(SAMPLED CHORUS)

I'm Heaven bound, man, I'm Heaven bound
Deaf to the negative, I don't hear a sound
When I'm heavy hearted, my hearts heavy
My back's crooked, but I hold steady
If I fall I know I will be lifted
Wrap me with a ribbon because I've been gifted
With a gift from the man above
To purify the hate and spread the love
Faces perceive with closed minds
Twenty-five-to-life, 'cause bein' different is a crime
Checkmark by my name when I reach the gates
Just because we ain't blood doesn't mean we can't relate
I ain't got a reason to be mad at the season
Give it all away, push my luck 'til I'm bleedin'
Open arms in view, Saint Paul in the peu
Gotta die to get to Heaven, yeah, I already knew

(SAMPLED CHORUS)

I'm Heaven bound
I'm Heaven bound

I'm Heaven Bound
I'm Heaven bound

PLEASE LISTEN

I'm so tired of the same and I just need a break from this, 'cause
I'm so tired of the same and I just need a break from this, 'cause

This one is for the others like me
That don't appear in discussions on equality
All my brothers and sisters on ODSP
And if you get a job they take half of your salary
I'm sorry but pocket change doesn't pay the bills
It's like society doesn't think we're real
I'm just trying to be heard but I've got a weak voice
This position I'm in, know it wasn't my choice
But I wouldn't change it, because I have a chance
To change the world like very few can
To make a stand and be more than music
Point your finger at me and you might just lose it
'Cause together we can rise, apart we will fall
If you haven't been through it you know nothing at all
But you can still learn, you can still help
If we tag team, we can wear that belt

(CHORUS)

I'm tired of the same
And I'm ready for change
But if people don't listen
Then it's just the same prison, oh
Please listen

Please listen
If you rode on my wheels
You would see some things are missin'
I'm tired of the same
And I'm ready for change
But if people don't listen
Then it's just the same prison, oh
Please listen
Please listen
If you rode on my wheels
You would see some things are missin'

You're in a position of power, so do somethin'
We write these letters but they don't do nothin'
Should I be ruthless, that's not how I was raised
Nobody pays attention, but I'm never fazed
I've been diggin' deep, made a well of my soul
I can't express the things my heart already knows
Like the roads that I'm ready travel
Gotta shake off the nerves and prepare for battle
'Cause I ask myself, why can't it be me
That molds minds, and makes people see
The metal that surrounds isn't who I am
But it sure helps me see who's really a friend
Who's really a foe, who doesn't get it at all
It's about time we start a movement and take control
'Cause we can contribute, we can provide
A view that many are too scared to even find

(CHORUS)

I'm tired of the same
And I'm ready for change

But if people don't listen
Then it's just the same prison, oh
Please listen
Please listen
If you rode on my wheels
You would see some things are missin'
I'm tired of the same
And I'm ready for change
But if people don't listen
Then it's just the same prison, oh
Please listen
Please listen
If you rode on my wheels
You would see some things are missin'

I'm so tired of the same and I just need a break from this, 'cause
(I'm so tired)
I'm so tired of the same and I just need a break from this, 'cause
(I'm so tired)
I'm so tired of the same and I just need a break from this, 'cause
(I'm so tired)
I'm so tired of the same and I just need a break from this, 'cause
(I'm so tired)

It's our time to make change
To show the world that we have purpose
To show society that we have something to contribute, that we have something to
give
And I'm gonna show them
Who's with me?

Let 'Em Know

Bumps in the road, how will I know
When to swerve, and when to just go
A mile high, but I started low
So I gotta tell 'em, gotta let 'em know
Gotta let 'em know

(CHORUS)

Let 'em know it will be alright, it will be alright
Let 'em know it will be alright, alright
Let 'em know it will be alright, it will be alright
Let 'em know it will be alright, alright

Let 'em know it will be alright, it will be alright
Let 'em know it will be alright, alright

Can you see China, can you see Japan
You've been digging deep, how dirty are your hands
May take awhile but you'll get there soon
So I've gotta tell you, yeah I've gotta tell you
I've gotta tell you

(CHORUS)

Let 'em know it will be alright, it will be alright
Let 'em know it will be alright, alright
Let 'em know it will be alright, it will be alright
Let 'em know it will be alright, alright

Let 'em know it will be alright, it will be alright
Let 'em know it will be alright, alright

You feel low, so climb back up
It's dark I know, but don't give up
A mile high, but I can still grow
So I gotta tell 'em, gotta let 'em know
Gotta let 'em know

(CHORUS)

Let 'em know it will be alright, it will be alright
Let 'em know it will be alright, alright
Let 'em know it will be alright, it will be alright
Let 'em know it will be alright, alright

Let 'em know it will be alright, it will be alright
Let 'em know it will be alright, alright
Let 'em know it will be alright, it will be alright
Let 'em know it will be alright, alright

SAVIOUR

Lights down low, it's so dark
I can't even tell what we're fighting for
Decisions are weak, but the rhythm is strong
So let yourself be saved by the song
No matter what colour, no matter if you're blue
Oh, it could save you
So let it be grey, or let it be great
Let it be grey, or let it be great

(CHORUS)

Let it save you eh-ee-eh, let it save you eh-ee-eh
Let it save you eh-ee-eh, let it save you eh-eh

Let it save you eh-ee-eh, let it save you eh-ee-eh
Let it save you eh-ee-eh, let it save you eh-eh

Let the music take you away
Let the music be your saviour
Let the music be your Jesus
Or whatever you believe in
Let it be your shining light
Summoning you in at night
Let it be, Mother Mary
You are weightless, it will carry you

(CHORUS)

Let it save you eh-ee-eh, let it save you eh-ee-eh
Let it save you eh-ee-eh, let it save you eh-eh
Let it save you eh-ee-eh, let it save you eh-ee-eh
Let it save you eh-ee-eh, let it save you eh-eh
(let the music save you, let the music take you)
Let it save you eh-ee-eh, let it save you eh-ee-eh
Let it save you eh-ee-eh, let it save you eh-eh
(let it be your saviour, your one and only believer)
Let it save you eh-ee-eh, let it save you eh-ee-eh
Let it save you eh-ee-eh, let it save you eh-eh
(let the music save you, let the music take you)
Let it save you eh-ee-eh, let it save you eh-ee-eh
Let it save you eh-ee-eh, let it save you eh-eh
(let the music save you, let the music take you)
Let it save you eh-ee-eh, let it save you eh-ee-eh
Let it save you eh-ee-eh, let it save you eh-eh
(let the music save you, let the music take you)
Let it save you eh-ee-eh, let it save you eh-ee-eh
Let it save you eh-ee-eh, let it save you eh-eh

(let the music save you, let it save you tonight)
Let it save you eh-ee-eh, let it save you eh-ee-eh
Let it save you eh-ee-eh, let it save you eh-eh

The Grace

I feel like it's the right time to say
Say a few things
That are on my mind
I have to get them out
I might not be around
For very long
But I want you to know
Who I am

(CHORUS)

I want you to remember who I am
(remember who I am and who I was)
I want you to hold on to the memories
(to the memories)
I want you to feel me even when
(even when I'm long gone)
I want you to know that I love you eternally

Your eyes are so wide
Wide with life
Look up at the North Star
That is me shining bright
You will grow up to be so
so beautiful
A little heartbreaker

But be true to yourself
As long as you fill up
Fill up on love
It doesn't matter
What you go through

I might not be around
For very long
But I want you to know
Who I am

(CHORUS)

I want you to remember who I am
(remember who I am and who I was)
I want you to hold on to the memories
(to the memories)
I want you to feel me even when
(even when I'm long gone)
I want you to know that I love you eternally

You bring a smile
To my face
You make me laugh
And so does your brother too
I just wanted to write this
As a legacy to remind you of the times
That we had together
I sure know
I had a lot of fun teaching you
How to grow
I might not be around
For very long

But I want you to know
Who I am

(CHORUS)

I want you to remember who I am
(remember who I am and who I was)
I want you to hold on to the memories
(to the memories)
I want you to feel me even when
(even when I'm long gone)
I want you to know that I love you eternally

RUNAWAY CHILD featuring The Emsee

I think I'm runnin', runnin' from somethin' I can't hide
Somethin' that's in my make up, that can't be denied
If I'm on the road to loss and pain then I just rewind
Pretend that things never changed and just reset my mind
They try to shake me, try to break me but I just stay tough
They sleepin' under blankets on my records, I'm yellin' "WAKE UP!"
I'm feelin' tired, I'm feelin' lost, I'm feelin' a bit left out
Like a square in a circle, how do I fit now
So I'll just run away, call me a runaway child
(runaway child)
I'll do my own thing, how do you like me now
(how do you like me now)

'Cause I've got places I've gotta go and I'm never ever gonna stop, stop
And I know that If I keep my head up I'll only ever see the top, the top

(CHORUS)

I know life won't always be good
And I always get down on myself even though I shouldn't
I know that life won't always be good
(go go go, go go go for broke, go go go, go go go for broke)
And I always get down on myself even though I shouldn't
(go go go, go go go for broke, go go go, go go go for broke)

Dear life, why you always throwin' that monkey wrench into my plans
Do you not yet understand, no matter what I'mma get the upper hand
I know lately folks don't play me, 'cause I'm all dark and emo
But I'd rather air out my downfalls than be that guy with the ego
I'm not runnin' away from y'all, I'm just livin' this thing called real life
Go from spotlights to a nine-to-five and then tell me what that feels like
Day to day most fade away and I hate to use the term average
But most of us will get stuck in the cycle, never see a life that's lavish
I zone out, put the truth in poems and escape, shout out to Rupert Holmes
Do the best I can to write my pain, might hate the rules but I like the game
'Til that day that the race is through, do my best to be passin' you
Look at your crew with a massive smile
Y'all got beat by a runaway child

'Cause I've got places I've gotta go and I'm never ever gonna stop, stop
And I know that If I keep my head up I'll only ever see the top, the top

(CHORUS)

I know life won't always be good
And I always get down on myself even though I shouldn't
I know that life won't always be good
(go go go, go go go for broke, go go go, go go go for broke)
And I always get down on myself even though I shouldn't
(go go go, go go go for broke, go go go, go go go for broke)

SCREAM MY NAME featuring D.O.

(CHORUS)

I want you to scream my name, I want you to scream it loud
I want you to scream it fast, like you won't ever get me back
I want you to scream my name, I want you to scream it loud
I want you to scream it fast, like you won't ever get me back

So go ahead say my name
Better yet scream it loud
Y'all leaned back lookin' at me
Lookin' at me, lookin' at me like how
How do I do it like I'm more able than the rest
Call me a pirate, I'm huntin' for that treasure chest
I give it more, never gonna give it less
Give it up for me, tell me I'm, I'm the best
They gonna do what they gonna do
Fire shots in a metal room
Watch and see who the bullets stick to
What you hear ain't always true

(CHORUS)

I want you to scream my name, I want you to scream it loud
I want you to scream it fast, like you won't ever get me back
I want you to scream my name, I want you to scream it loud
I want you to scream it fast, like you won't ever get me back

Ah yeah, come on, go ahead and scream it
I wanna hear it from the top of your lungs like you mean it
This is for all those that were believin'
That kept that vision alive when no one else could see it

And gave you the push for the times that you need it
Tell you to go for the gold and when you get there seize it
So I plan these steps strategic, 'cause hope floats like a boat even when you
seasick

If you been through it then you gotta feel it
'Cause D.O. and B-Flix all we talk is the realness

So say it loud 'cause it ain't a secret
And put your hands to the sky 'cause I wanna see 'em

(CHORUS)

I want you to scream my name, I want you to scream it loud
I want you to scream it fast, like you won't ever get me back
I want you to scream my name, I want you to scream it loud
I want you to scream it fast, like you won't ever get me back

So go ahead just scream

Just scream

(CHORUS)

I want you to scream my name, I want you to scream it loud
I want you to scream it fast, like you won't ever get me back
I want you to scream my name, I want you to scream it loud
I want you to scream it fast, like you won't ever get me back

Heartfelt featuring DGT

Just tryin' to keep it real, nonfiction
Been tryin' to build it up, but where my bricks been
'Cause I've been countin' sheep, and I've been losin' sleep
'Cause two plus two doesn't equal three
Guess I need four, guess I need to do more
Feel like I'm drivin' and my tire's been punctured
But I don't ever spare, I only strike
And I never fade, I'm always bright

Here we go, I've gotta show that
I've got much more
Give it all until I'm on the floor
Prove to them that I am full of heart
So guess what I wanna do, this is what I'm gonna do

(CHORUS)

You know I'm tryin' to be genuine
You know I'm tryin' to say what's in my heart, you know
You know I'm tryin' to be genuine
You know I'm tryin' to say what's in my heart, you know

Maybe I'm too real, they just don't get it
They're backs turned to me, can't see where I'm headed
But we be-wedded, and I ain't breakin' my vow
Droppin' songs in every language 'til I'm world renowned
'Til I give 'em hope, 'til I give 'em perspective
When I open my heart, I'm very selective
I pick and choose, set my ride on cruise
I guess changin' opinions must be my muse

Here we go, I've gotta show that
I've got much more

Give it all until I'm on the floor
Prove to them that I am full of heart
So guess what I wanna do, this is what I'm gonna do

(CHORUS)

You know I'm tryin' to be genuine
You know I'm tryin' to say what's in my heart, you know
You know I'm tryin' to be genuine
You know I'm tryin' to say what's in my heart, you know

Uh, I'm tryna say whats in my heart not my brain
I'm tryna stay up out the dark and the pain
I find a way to play the part of the brave
In the dark in the rain, I'm a slave to my chains
Cyclical thoughts in the littlest box
While the envious watch as I creep to the top
But the easiest part is to breathe in the box
Spittin' heavier bars than the general population
I ain't got no time for hatin' but procrastination
And the time I've wasted, givin' all my paper to the slave creators
These paper scrapers who engage the faithless, but today it's changin'
That's all she wrote
That's all I got, I'll either climb or choke
You wonder why these are the words I chose
It's all real, from the heart, like I talk in prose
And you know

(CHORUS)

You know I'm tryin' to be genuine
(just trying to be genuine)

You know I'm tryin' to say what's in my heart, you know
(yeah you know)

You know I'm tryin' to be genuine
(just trying to be genuine)

You know I'm tryin' to say what's in my heart, you know

ENOUGH FOR US

It's goin' down, and we are goin'
It's goin' down, and we are goin' up

I've got enough for me
I've got enough for three
I've got enough for we
I've got enough to leave
The spot that I'm at right now
Pick the world up, spin it around
Never ever gonna put it down
While I sit I'mma stand out in the crowd

I know that teamwork
will make the dream work
When I have it all
I ain't gonna never ever put it down
I know that teamwork

will make the dream work
When I have it all
I ain't gonna never ever put it down

(CHORUS)

It's goin' down, and we are goin'
(I've got enough for us, I've got enough for me
I've got enough for we, oh-oh)
It's goin' down, and we are goin'
(I've got enough for us, I've got enough for me
I've got enough for we, oh-oh)
It's goin' down, and we are goin'
(I've got enough for us, I've got enough for me
I've got enough for we, oh-oh)
It's goin' down, and we are goin' up
(I've got enough for us, I've got enough for me
I've got enough for we, oh-oh)

I want more than just a little bit
To help us all live a bit
Rooftop infinity pools
White tuxedo, make 'em all drool
If you want it, I'mma get it
If I love it, I'mma live it
On the road to success
Positivity pumpin' out my chest

I know that teamwork

will make the dream work
When I have it all
I ain't gonna never ever put it down
I know that teamwork
will make the dream work
When I have it all
I ain't gonna never ever put it down

(CHORUS)

It's goin' down, and we are goin'
(I've got enough for us, I've got enough for me
I've got enough for we, oh-oh)
It's goin' down, and we are goin'
(I've got enough for us, I've got enough for me
I've got enough for we, oh-oh)
It's goin' down, and we are goin'
(I've got enough for us, I've got enough for me
I've got enough for we, oh-oh)
It's goin' down, and we are goin' up
(I've got enough for us, I've got enough for me
I've got enough for we, oh-oh)

SHOW ME THE WAY featuring iLLvibe

So much on my mind, my head is spinning
I can't get over them others winning
Them others getting the girl of my dreams

The dark isn't as dark as it seems

Every time that I try
To tell you I'm the one
You want deep down inside
You just straight up deny
That I could give you the love
That I could give you the sky
Before we are done
You and I will take flight

(CHORUS)

Why don't you show me the way
Straight to your heart, right from the start
Why don't you show me the way
Straight to your heart, right from the start
Why don't you show me the way
(it's just you and I, it's just you and I)
Straight to your heart, right from the start
(it's just you and I, it's just you and I)
Why don't you show me the way
(it's just you and I, it's just you and I)
Straight to your heart, right from the start
(it's just you and I, it's just you and I)

I'm so tired of being dead last
I can't get past all the losin'
And I don't wanna chase, I just wanna catch
And I've got moves that nobody else has

Every time that I try
To tell you I'm the one
You want deep down inside

You just straight up deny
That I could give you the love
That I could give you the sky
Before we are done
You and I will take flight

(CHORUS)

Why don't you show me the way
Straight to your heart, right from the start
Why don't you show me the way
Straight to your heart, right from the start
Why don't you show me the way
(it's just you and I, it's just you and I)
Straight to your heart, right from the start
(it's just you and I, it's just you and I)
Why don't you show me the way
(it's just you and I, it's just you and I)
Straight to your heart, right from the start
(it's just you and I, it's just you and I)

It's just you and I, killer
Now I'm feelin' like a suicide, And I had enough of the foolish pride
But you ain't ever had enough or knew this vibe
And if you ain't want it I'mma move aside
'Cause I ain't tryin' to ever make you lose your stride
You a 10, I ain't really into 2 for 5
Sexy, feelin' all those cute replies
Text me, I'm really into food for thought
Come through the spot, let me brew the pot
Flix got the track and the groove is locked
Mamma taught me how to choose the top
Cold shoulder, but your shoes are hot

Now you warmin' up and the pools the spot
A winner but with you I could lose a lot
So show me the way, I won't bruise your heart

(CHORUS)

Why don't you show me the way
Straight to your heart, right from the start
Why don't you show me the way
Straight to your heart, right from the start
Why don't you show me the way
(it's just you and I, it's just you and I)
Straight to your heart, right from the start
(it's just you and I, it's just you and I)
Why don't you show me the way
(it's just you and I, it's just you and I)
Straight to your heart, right from the start
(it's just you and I, it's just you and I)
